2017 Online Spring Comments

Question: Please explain why you would take or not another course by this instructor

Respondent	Response
1	The class was good but there were assignments I had no idea I would have to do and was warned 3 weeks before the class ended. I somehow did not see the assignment and was very behind but she was very linnet on letting me catch up.

Question: How would you improve this course?

Respondent	Response
1	A way to make the assignments due more clear. Everything was in Microsoft word so I could not open all links unless I asked for it in a PDF

Question: What was positive about the course?

Respondent	Response
1	I really liked how fast and responsive she was and very understanding.

2017 Online Spring Comments

Question: Please explain why you would take or not another course by this instructor

Respondent	Response
2	██████████ is an excellent instructor and I want to take my next class with her if other things! I am doing my Business Management Associates, about 40% through it. She was understandable when I had some major mental health issues due to an unfortunate event but she HELPED and every response was quick and contained a LOT of useful information. She is absolutely amazing. Keep her. Give her a raise too. She is wonderful.
3	She was very attentive when I needed help.

Question: How would you improve this course?

Respondent	Response
1	Do away with a discussion board altogether. Most people don't know how to explain math in words and therefore many students didn't bother doing the discussion board. Its useless and isn't achieving its purpose. If the discussion board is kept then students should get full points for at least trying not based on correctiveness. It's already easy enough to lose points from tiny mistakes in math; student don't need a discussion board in addition to that. Also, allowing students to complete all homework, including the discussion board, at their own pace within a reasonable amount of time would help to improve this course.
2	Perhaps have a more involved discussion board, I THINK that this class was small though! Unless people did not do it. Even Required communications and responses discussing the topics of the course material with other students is great.

Question: What was positive about the course?

Respondent	Response
1	That its an available option.
2	My Professor and MyMathLab w/eText. Very good.
3	The instructor was very positive

2017 Online Spring Comments

Question: Please explain why you would take or not another course by this instructor

Respondent	Response
2	She was very well organized and clear. Additionally, she always replied to emails and questions timely.
3	I would probably take another class with this instructor but not online.
4	Instructor was rude and condescending at times. Work load was almost impossible to get done every week (2-5 chapters, DB post BEFORE Wednesday night, etc) when you have other classes, family, and a job. Course was not easy to navigate and had lots of technical difficulties throughout this course.

Question: How would you improve this course?

Respondent	Response
2	I would space out some of the work, versus it all being due at the end of the semester.
3	By not taking it online.
4	Lighten the workload. Instructor should be more considerate and less condescending.

Question: What was positive about the course?

Respondent	Response
2	I liked knowing what to expect each week and I enjoyed the information we learned about.
3	I learned a lot about sociology.
4	Enjoyed doing the MindTap Exercises. They helped organize the information learned throughout each chapter.
