

Associate in Arts

Benefits of a Humanities Degree

The Associate in Arts degree program in Humanities is designed specifically to prepare students for successful transfer to a four-year baccalaureate degree program in a variety of majors.

To achieve this purpose, the Humanities degree program provides students with a broad academic background in the field of fine arts, philosophy, and the humanities. Students may elect to focus their study in one of these three areas.

Students will have an opportunity to explore a variety of disciplines within the humanities while also completing the general education requirements necessary for transfer.

The program also provides the student with the essential skills for academic, professional, and personal purposes, including the ability to communicate effectively; think critically; analyze and apply inquiry from research; gain a global perspective; and appreciate cultural diversity.

The College's required general education courses further strengthens students' skills.
